

## JUNE ALUMNI HIGHLIGHT—MAX AUGUSTINE

We think of Westmont often and fondly and want to thank Westmont for giving Max the extraordinary foundation and encouragement to always explore his interests and passions.

After Westmont, Max attended public school; but we continued to raise him using the Montessori principles we learned from Enid Lattner, Colette Cross, and our Westmont family.

We wanted to share some exciting news. Max has been accepted to the ultimate Montessori college – MIT! He will study mathematics and computer science. Max was also accepted to Dartmouth (as a Jack Byrne Scholar for mathematics), Brown, Cornell (Honors), U Penn (Wharton), Williams, and a few other highly selective colleges!

Max remains the best of friends with Daniel Geary and Evan Rapp who were in Mrs. Mini-cozzi's class together and are also Westmont alums from the Kindergarten class of 2004. It seems like just yesterday the three of them were working on the "Grand Array" in Mrs. Cross' Kindergarten classroom.

Written by a very proud mom!
