

## ALUMNI HIGHLIGHT – FEBRUARY 2017

**Andre Golumbeski and Sam Marran**

We were so pleased to welcome two former alum to our Kindergarten Information Session recently. Andre Golumbeski and Sam Marran, who attended Kindergarten at Westmont in 2008, kindly agreed to come and speak to their experience at Westmont and how they feel that Westmont helped shape or support their interests and passions, in their cases namely math and science. After graduating from Westmont they went their separate ways and to separate schools. They recently reconnected as freshmen when they both entered the honors Biology class at Mendham High. What a pleasure to see them so grown up and hear them speak so eloquently about themselves, their school journey thus far, and their Westmont beginnings. Two proud moms were on hand to hear them speak and to add their own memories and thoughts on the benefits of a Westmont early educational foundation.
