This year marked 4 years of our Junior Camp Counselor Program. We were delighted to welcome 22 of our former students back to campus this summer. Reconnecting was exciting for all of us, and to watch them work side by side with some of their former teachers was heartwarming. Our young campers were naturally drawn to their energy and enthusiasm. They connected so seamlessly with the children and took pride and care in helping them through their day and their projects. We ourselves also felt great pride in seeing our young alum return in such a capacity. We know how teenagers like to sleep in on their vacations; all of our counselors took their responsibilities very seriously and were punctual and conscientious about their duties.

We thank them for their commitment and willingness to learn and give back to their alma mater and to their parents for driving them daily. A few are working toward their own driving permits, best of luck to them! We had fun looking at some photos of them when they were at Westmont. What a treat for us to see our young alum in their now stage, a super group from all accounts. This year our counselors ranged in age from 12-17 years old and represented 13 schools:

Academy of St. Elizabeth, Black River Middle School, Gill St. Bernard, Kent Place School, Mendham Township Middle School, Mountain View Middle School, Norfield Mt. Hermon, Pingry School, Roxbury High School, Villa Walsh Academy, West Morris Central High School, West Morris Mendham High School, The Willow School.
